With every step, you're on your way to a bigger, brighter tomorrow - and Rest will be right there with you.

* as at 30 June 2019

Keep your insurance switched on

Your insurance will 'switch off' if there's no contribution to your super for 16 months (13 months from 1 April 2020) and you don't elect to keep your insurance. Your insurance cover can be turned on again (reinstated) if you tell us that you'd like to keep it. You'll need to tell us within 60 days of the date it was cancelled.

So if you stop working, or move jobs, it's important to keep in contact with us so your Rest insurance keeps you covered.

02 | How super works

About super

Superannuation is money you save now for when you're ready to kick back and relax in retirement. Super is partly compulsory, and there are limits to how much you can contribute each year.

There are different types of contributions Rest can receive on your behalf, like employer contributions, voluntary contributions and co-contributions.

There are also rules and limits about when you can take money out of your super, like when you reach a certain age or can't work due to permanent disablement, and how much you can withdraw.

Choosing your fund

You can usually choose which super fund you'd like to be in. Sometimes, your conditions of employment will decide which fund.

If you don't have a choice, or don't tell your employer where you want your super to go, your Superannuation Guarantee contributions (the bit your

employer must pay into super for you) will be paid into a MySuper product.

Making contributions

Super is a tax-effective way to save for your future thanks to government tax concessions. You can boost your super further by:

- deducting extra money from your before-tax salary. This is called 'salary sacrifice' and may even reduce your tax
- adding other savings (after-tax) into your Rest account - you may even be eligible for a government co-contribution if you do this.

Transferring low balances to ATO

If your balance is under \$6,000 on 30 June or 31 December and you do not have insurance, your account balance will be transferred to the Australian Taxation Office (ATO) if there's no activity on your account, such as a contribution or switching investment options over the past 16 months.

04 | Risks of super

Like all investments, super has risks. To balance risk, super funds generally invest in a broad range of asset classes such as cash, bonds, property and shares. Assets with the highest potential return over the long term (such as shares) may also be higher risk in the short term. How you invest your super depends on the level of risk you're OK with. Different strategies may carry different levels of risk, depending on the assets that make up the strategy.

Some things to keep in mind

- The value of investment options can go up and down
- Future returns may differ from past returns
- Returns are not guaranteed, will vary, and you may lose some of your money
- Superannuation, social security and tax laws may change in the future
- The amount of your future superannuation savings (including contributions and returns) may not be enough to adequately provide for your retirement.

Other significant risks include currency fluctuations, interest rate changes, company specific risks, investment liquidity risks (turning investments into cash), and global market conditions.

The right level of risk for you will depend on factors such as your age, investment timeframes, where your other assets are invested and how comfortable you are with the possibility of any negative returns.

You should read the important information about the risks of super before making a decision. Go to the *'Investment Guide'* available at rest.com.au/pds The material relating to the risks of super may change between the time when you read this Statement and the day when you acquire the product.

05 | How we invest your money

Choose from many different paths

Rest offers a range of investment options to suit your financial needs and objectives. You can even choose a combination of options to suit your personal level of risk and return.

The Core Strategy is Rest's default investment option. So if you don't make an investment choice, or actively choose to invest all your money in the Core Strategy, you'll be a MySuper member. If you choose not to put all your super into the Core Strategy, you'll be a choice member.

SUPER TIP #3

Think about risks, returns and timeframes

Always consider the likely returns, risk and timeframe when choosing investment options. Use our online advice tool to help you make the right investment choices. Visit rest.com.au/advice to get started.

You should read the important information about how we invest your money before making a decision. Go to the *'Investment Guide'* available at rest.com.au/pds. The material relating to how we invest your money may change between the time when you read this Statement and the day when you acquire the product.

Your Core Strategy

Rest Core Strategy is designed for Rest members looking for a balance between risk and return, with a wide asset allocation range.

Aim

Achieve a balance of risk and return by investing in both growth assets and defensive assets

Investment return objective¹

CPI + 3% pa over the long-term (rolling 10 year periods)

Asset allocation²

35.5% defensive, 64.5% growth. A mix of shares and bonds, property, infrastructure, cash and other asset classes.

★ Core Strategy – Asset allocation

- Cash 7% (0-25%)
- Bonds 6% (5-50%)
- Absolute Return 6% (0-25%)
- Other asset classes (Equity strategies, Private equity, Agricultural and Credit) 19% (0-30%)
- Infrastructure 11% (0-20%)
- Property 11% (0-25%)
- Australian Shares 17% (10-45%)
- Overseas Shares 23% (10-45%)

Minimum suggested timeframe

10+ years

Standard Risk Measure³

Estimated number of negative annual returns expected over any 20 year period: 3-4

Risk band and level³

Risk band 5, Medium to High

What this option has returned⁴

(Past performance is not an indication of future performance)

Yearly return	
2015	9.47%
2016	1.82%
2017	11.07%
2018	8.76%
2019	5.96%
Five year annualised return	7.37%
Ten year annualised return	8.95%

The Core Strategy has an exposure to the Australian shares asset class which may include companies listed in Australia but are based overseas. In addition, up to 10% of this asset class may be invested in stocks listed on the New Zealand Stock Exchange.

¹ This is what we use to determine asset allocation. It is also used to measure if the investment objective is met. It is not a guaranteed rate of return. Rest does not use the Return Target (shown in the MySuper Product Dashboard) to set the investment return objective.

² The asset allocation will vary year to year within the ranges shown in brackets. This also means the allocation to defensive assets and growth assets will vary from time to time. We reserve the right to vary the asset allocations, including the benchmarks and ranges, of all or any of the investment options, introduce new options or close existing options without prior notice (where permitted by law).

³ More information about risk band and level and Standard Risk Measure can be found in the 'Investment Guide' available at rest.com.au/pds

⁴ Returns are quoted at 30 June each year after fees not directly charged to your account and taxes have been deducted. The returns stated are correct as at 30 June 2019.

06 | Fees and costs

Consumer Advisory Warning

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (moneysmart.gov.au) has a superannuation fee calculator to help you check out different fee options.

SUPER TIP #4

Know how fees can affect you super

The calculator on the ASIC website at moneysmart.gov.au can be used to calculate the effect of fees and costs on your superannuation account balance.

As an industry fund, Rest operates only to benefit members. This helps us keep our fees low, providing you with great value for money.

Fees and costs

The tables on pages 10 and 11 show the main fees and costs for a Rest Super member wholly invested in the Core Strategy which are deducted directly from your account or from investment returns. You can use this information to compare the Core Strategy's fees and costs with other super funds or products.

If your account balance is less than \$6,000 at the end of the financial year, or when you leave Rest, the total combined amount of administration fees, investment fees and indirect costs charged to you is capped at 3% of your account balance for the year (or the period until you left). Any amount charged above the cap will be refunded.

¹ For information regarding the definitions of the fees and costs incorporated in the table above, please refer to the '*Additional information on fees and costs*' at rest.com.au/pds Past costs are not a reliable indicator of future costs.

Fee changes

All fees and charges are current and may be revised or adjusted by Rest from time to time. We may also introduce new fees. Where there is material or significant increase in fees or charges, we will give you at least 30 days prior notice, as required by law. This excludes investment fees which the Trustee reviews regularly. Go to the 'Additional information on fees and costs' at rest.com.au/pds for the estimated investment fees and costs for all the investment options offered by Rest.

Transfer to Rest Corporate

If your employer confirms your eligibility, your account may automatically transfer to Rest Corporate. Your insurance cover and insurance fees will change and we'll notify you when the transfer occurs. If you would prefer to remain in Rest Super, you'll have 30 days after the transfer to opt out.

Example of annual fees and costs

This table gives an example of how fees and costs for the Core Strategy for this superannuation product can affect your superannuation investment over a one year period. You should use this table to compare this superannuation product with other superannuation products.

Example – Core Strategy		Balance of \$50,000
Investment fees	0.60% pa including a performance related fee of 0.09% pa	For every \$50,000 you have in the superannuation product you will be charged \$300 each year
PLUS Administration fees	\$67.60 pa or \$1.30 per week plus 0.1% pa of your account balance at the end of the month	And , you will be charged administration fees of \$67.60 regardless of your balance plus \$50
PLUS Indirect costs for the superannuation product	0.07% pa	And , indirect costs of \$35 each year will be deducted from your investment
EQUALS Cost of product		If your balance was \$50,000, then for that year you will be charged fees of \$452.60 for the superannuation product

Note – Additional fees may apply. **And**, if you leave the superannuation entity, you may also be charged other fees and a buy/sell spread which also applies whenever you make a contribution, exit, rollover or investment switch. The buy/sell spread for exiting is 0%.

Financial advice fees

There's usually no charge for simple advice and super questions - it's part of being a member of Rest. For more complex advice, you'll be charged a fee which will depend on the topic and your circumstances. This fee may be able to be paid out of super. We'll always talk to you about this fee first, and the Statement of Advice will set out the details of the fees.

You should read the important information about fees and costs before making a decision. Go to 'Additional information on fees and costs' available at rest.com.au/pds. The material relating to fees and costs may change between the time when you read this Statement and the day when you acquire the product.

07 | How super is taxed

The tax treatment of super is complex and may change. We recommend you seek advice from an accountant, tax agent or financial adviser.

Tax rules on your super

- Rest will pay the tax applying to your account directly to the ATO
- Contributions into your super made from your before-tax salary are taxed at 15%
- Contributions made from after-tax money are not taxed by the fund
- Investment earnings are taxed at a maximum of 15%

- Withdrawals from your account may be taxed if you are aged less than 60
- Once you turn 60, you can withdraw your super tax-free.

If you go over the limit (cap) on your before or after-tax contributions to super, you will pay extra tax.

Your Tax File Number (TFN) is important.

You should provide your TFN - without it we can't accept any personal contributions from you.

And we might not be able to track down any other super accounts you have. This could mean you miss out on money that belongs to you.

SUPER TIP #5

Don't pay more tax

Check that we've got your TFN so you don't pay a higher rate of tax on your contributions, and you'll avoid any nasty tax surprises when it's time to access your super.

For information about how tax applies to super contributions, investment earnings and withdrawals, and the limits around how much you can contribute to your super, go to rest.com.au/facts

08 | Insurance in your super

New insurance arrangements from 1 December 2019

On 1 December 2019, Rest will change insurance providers to TAL Life Limited, ABN 70 050 109 450 AFSL 237848 (TAL), however your current insurance premiums, terms and conditions and the existing benefit design will remain in place until 31 March 2020.

From **1 April 2020**, the insurance design, terms and conditions and premiums with TAL for all Rest Super members will change. Some changes include:

- the level and cost of Default Income Protection cover will change (as set out in the table 'Default cover - cost and benefits as at 1 April 2020' on page 15)
- the Benefit Period for Default Income Protection cover will reduce from To age 60 to a maximum of 5 years, however you can still apply for a To age 60 benefit period
- you can vary the default 60-day waiting period for Income Protection cover to either 90 or 30 days
- if you are a new member on or after 1 April 2020 and under age 25 or have an account balance of less than \$6,000, you will no longer automatically receive Default Cover from the date you join Rest

Super unless you opt in. However, Default Cover will be automatically provided once you are age 25 and have a balance of more than \$6,000, subject to eligibility

- if you are a new member on or after 1 April 2020 and age 25 or over on the date you join Rest and have an account balance of \$6,000 or more you will automatically receive Default Cover from the date you join Rest Super, subject to eligibility

If you join Rest Super between the date of this PDS and 31 March 2020, we'll contact you to ask you to choose to retain your existing insurance arrangements. If you don't make this choice, your cover will terminate on 1 April 2020 if your account balance does not reach \$6,000 prior to 1 April 2020. Otherwise, your Income Protection cover will automatically change on 1 April 2020 to a benefit of 5 years (and your insurance premiums will reduce accordingly).

For details of these changes which will be effective from 1 April 2020, please go to the Rest Super Insurance Guide at rest.com.au/pds/super-insurance-guide

Until these changes take effect on 1 April 2020, your insurance cover is as outlined in this Section 8 of the PDS and on pages 1 - 33 of the Rest Super Insurance Guide.

Protecting your most valuable asset. You.

Life doesn't always go to plan. Insurance is the smart way to protect yourself financially.

If you're 18 or over, and receiving mandatory employer contributions (like the Superannuation Guarantee

contribution) you'll automatically receive our Default Cover package.

If you're not, you can still apply for cover, but you'll need to provide health and other information. You can apply for cover online in MemberAccess.

What is Default Cover?

Your Rest Super Default Cover is made up of:

- Default Death cover
- Default Total and Permanent Disablement (TPD) cover
- Default Income Protection (IP) cover.

Your Death and TPD cover is provided as a minimum insurance requirement under MySuper.

The total amount of cover you receive changes as you grow older and your insurance needs change. So your cover is lowest when you're young, and your salary and needs are generally lower. As you get older, and your needs increase, your cover automatically increases, and reduces again as you approach retirement.

You are responsible for the payment

of your insurance costs and they are deducted from your super account. Your insurance cover and costs are adjusted each year on your birthday.

Death cover provides your beneficiaries with a lump sum or pension if you pass away. It also includes an advance payment of your death benefit if you become terminally ill.

TPD cover provides a lump sum payment of \$28,600 for most age groups to help you financially if you're not able to work again.

IP cover helps you meet living expenses if you can't work due to injury or sickness for more than 60 days. You'll be paid up to 77% of your Pre-Disability income as a monthly benefit, plus an amount equal to 12% of your monthly benefit paid as super into your Rest Super account.

Default cover is provided to you automatically if you're eligible.

Unless you opt out of this cover, or your cover is canceled, the cost will be deducted each month from your Rest Super account. If you don't have enough money in your account, your insurance cover will end without notice. The Rest Super Insurance Guide available at rest.com.au/pds has more information about your insurance.

Changing your cover

You can reduce or cancel each component of your insurance. If you don't want any insurance cover in Rest, you can cancel it.

If Default Cover isn't enough for your needs, you can increase your cover by applying for extra voluntary cover:

- Death cover – up to any amount
- TPD cover – up to \$5 million (or \$1 million if you are aged 65 or over)
- IP cover – up to \$30,000 per month (subject to your income).

If you have Income Protection insurance,

it's important to contact us if you stop working for an extended period of time. The IP benefit paid is based on income earned from working over the last 12 months, so if you stop working, it could affect your ability to receive a benefit payment.

Before you change or cancel your insurance cover, please consider your needs carefully. You can change or cancel your cover online in MemberAccess, or by contacting Rest on 1300 300 778 or via Live Chat at rest.com.au

Transferring your insurance

You can transfer any existing Death or TPD insurance you have with another super fund to your Rest Super account (subject to limits, conditions and approval). Visit rest.com.au/forms to download an 'Insurance transfer' form and for more details.

Special offer for new members

If you have received default cover, you can increase this cover to a certain level without providing any health evidence (limits and conditions apply). You need to do this within 120 days of joining Rest Super.

SUPER TIP #6

If you leave your job, or your personal circumstances change, let us know straight away. Any changes could impact your insurance cover.

What if I have both Death and TPD insurance cover?

Your Death and TPD cover are linked. This means that any TPD payments will reduce your Death benefit by the amount paid. So if your Death and TPD cover are for the same amounts, your Death cover will cease if you are paid a TPD benefit. If your Death cover is higher than your TPD cover, you'll continue to be insured for the balance of your Death cover if you're paid a TPD benefit. Please note that when a Death benefit is paid, all TPD cover will cease on the date of your death.

Default cover – cost and benefits as at 8 November 2019 (IP Benefit Period to Age 60, Waiting Period 60 days)

Age Last Birthday	Amount covered (Death)	Amount covered (TPD)	Max. amount covered per month IP	Total cost per week
